“The America many of us grew up in was full of optimism. We believed our ability to achieve the American Dream was limited only by our imagination, ingenuity and hard work. Unfortunately, many fear that the American Dream is being diminished and are left wondering whether their children and grandchildren will have the same opportunities we had growing up. I firmly believe the fight for America’s future has not been lost. That is why I am running, to reinvigorate the entrepreneurial spirit and restore the promise of the American Dream. I would appreciate your vote on June 12th.”
